PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web applications and data-driven solutions since 2023, using Vue.js, Angular, Python, and MySQL. Certified in Data Science (Oracle ONE, 339 hrs). Bilingual ES/EN.

WORK EXPERIENCE

Full Stack Developer

Pacific Lead Group · 2025 – Present

- Build and optimize lead-conversion web platforms using Vue.js, PHP, and Python.
- Integrate Everflow, Redtrack & Convertri; manage cPanel-hosted environments.

Full Stack Developer — Mobile

Clever Cloud · 2025

- Developed Blogui mobile app with Ionic/Angular; implemented REST APIs and UI components.

Front-End Developer

Brexia Industrial · 2025

- Built ERP frontend modules and automated key internal operational workflows.

Freelance Full Stack Developer

Haz Solutions & AI CONSULT Group · 2023 – Present

- Custom web systems, ERP platforms, and SEO-optimized corporate sites for SMBs and startups.

Systems & ERP Administrator

Eseasa offshore · 2025 – Present

- Manage and maintain databases, Windows Server environments, and ERP platforms; implement ERP solutions and develop, integrate, and troubleshoot APIs.

KEY ACHIEVEMENTS

- Managed digital campaigns generating over 120,000 leads through Everflow, Redtrack, and Convertri integrations at Pacific Lead Group.
- Delivered ERP implementations and API integrations supporting core business operations, including database and Windows Server maintenance.
- Advised 5+ startups and local businesses on process automation and operational efficiency.
- Self-funded university education while maintaining full-time and part-time professional roles.
